

## Moving Ahead 2010: May 2-4, 2010

### Advanced Technology Vehicles Ride-and-Drive

Monday, May 3, 12 pm to 6 pm – Ohio Expo Center on the Ohio State Fairgrounds

A key component of Moving Ahead 2010 will be the Advanced Technology Vehicles Ride-and-Drive. With support from the National Truck Equipment Association (NTEA), the Ride-and-Drive will provide an opportunity for vehicle manufacturers and dealers to showcase a variety of “green” vehicles to our anticipated 1,000 business, industry and government conference attendees. We are also marketing the Ride-and-Drive to fleet decision-makers and other fleet professionals in Ohio and nearby states.

Sponsors and exhibitors of Moving Ahead 2010 are invited to provide vehicles for the Ride-and-Drive. Space for up to 30 vehicles will be available on a first-come, first-served basis. Vehicles may be provided by original equipment manufacturers, vehicle dealers or companies that have deployed advanced technology vehicles into their fleets. If you have an advanced technology vehicle (currently available on the market, soon to be commercialized or R&D prototype), we would welcome its inclusion in the Ride-and-Drive. Examples include:

- Light-, medium- and heavy-duty hybrid, plug-in hybrid and dedicated electric vehicles
- Light-, medium- and heavy-duty compressed or liquefied natural gas and propane vehicles
- Diesel vehicles that employ advanced pollution control systems and anti-idling devices
- Vehicles operating on biofuels
- Fuel cell vehicles

Vehicle Move In Times	Monday, May 3 6:00 am to 10:00 am
Ride-and-Drive Event	Monday, May 3 12:00 pm to 6:00 pm
Vehicle Move Out	Monday, May 3, immediately following the event

### Ride-and-Drive Timeline

Our partner, NTEA, has years of experience with ride-and-drive events, and will provide direct management oversight of the event with support from Ohio State University and Clean Fuels Ohio. Vehicle routes will be marked by cones. Routes will be laid out to ensure that vehicles will not cross paths. All vehicles will be driven on the Expo grounds in a single large parking lot, not on any public streets.

TO REGISTER FOR THE MOVING AHEAD 2010 ADVANCED TECHNOLOGY VEHICLES RIDE-AND-DRIVE, PLEASE VISIT [www.MovingAhead2010.com/ride-and-drive](http://www.MovingAhead2010.com/ride-and-drive).
